

THE CLIENT

Sarasota County Public Schools

Enrollment: 43,000+

Employees: 5,000+

Geographic Size: 556 sq mi

THE PROJECT

A comprehensive all-hazards emergency preparedness program.

PREPARED WITH SAFEPLANS

To build upon their existing, all-hazards emergency plans, SafePlans worked with the Sarasota County Public Schools' Office of Safety and Security to:

- Establish a secure Emergency Response Information Portal (ERIP) and ERIP mobile app.
- Update all-hazards emergency plans.
- Collect tactical site mapping data, such as floor plans and digital imagery for all schools.
- Train all school administrators in emergency plan development and maintenance.
- Develop custom eLearning courses to train teachers in emergency response procedures.

THE RESULT

Sarasota County Public Schools has always made safe schools a top priority. With SafePlans' and our ERIP system, Sarasota County has a highly effective and fully sustainable emergency preparedness program that helps to make their schools even safer and more prepared.

THE CHALLENGE

The mission of Sarasota County Public Schools (SCPS) is preparing students to achieve the highest learning standards by engaging a high-quality staff, involved parents, and a supportive community.

Insuring that learning takes place on campuses that are safe and prepared in a district that covers over 500 square miles can create logistical challenges and when SCPS looked to enhance preparedness, they chose SafePlans.
